Reggio Emilia area, Italy

LANGUAGES & RUNTIMES

Python
TypeScript / React / Electron
C# (Godot) / Luau
Java / C++ / SQL

ENGINEERING PRACTICES

Git & PR workflow
Automated testing (pytest, GUT)
CI/CD (GitHub Actions)
AI-augmented method (spec → plan → test → audit)

CREATIVE & CONTENT

Video editing (DaVinci Resolve)
AI content & prompting
Localization in 9 languages
Social publishing

LANGUAGES

Italian — native
English — professional working proficiency

AVAILABILITY

Immediate — full-time
Italy and abroad
On-site / hybrid / remote

SUMMARY

Junior software developer with an AI-augmented workflow — I write the spec, generate, test, and audit; architecture decisions are mine.

SELECTED PROJECTS

- BleaBox**

Luau --!strict · Roblox

Server-authoritative anti-exploit architecture for a multiplayer RPG · 19 ADRs, ~9k lines.
- eu4-assistant**

Python · PyQt6 · CV

Recursive-descent parser for a proprietary binary save format · 2.6k test lines (0.62 ratio).
- claude-dashboard**

Electron 33 · React 19 · TS 5.7

Desktop cockpit for Claude Code — streams 15MB JSONL logs with list virtualization.
